<b>Jack Louhridge</b>	<b>At Large</b>	<b>850-982-4490</b>

**Range Safety**

Members are reminded to be sure that all rounds impact the berms. Targets that are placed close to the ground offer the chance for the rounds to ricochet over the berms. All targets placed on the ground must be at the base of a berm.

**MAKE SURE ALL ROUNDS STAY INSIDE THE RANGE!!**

All members act as safety officers while on the range. If you notice an unsafe act or condition, it is your responsibility to see that the safety infraction is corrected. We are not encouraging confrontation. Usually a friendly reminder is all that is required.

# **Gun News**

## **Club T-Shirts**

We now have t-shirts, sweat shirts, coffee mugs and other merchandise available with the club logo on them. A website has been setup that we can order this merchandise through. All items purchased at <http://www.prpc.imprints.com/> return 20% of the purchase price to the club. This is a great way to help support the club while looking good on the range. There is also a direct link to the website on the club homepage.

## **What is a “COLD” range?**

The range is called “**COLD**” anytime the need arises to go forward of the firing line. When the range is “**COLD**” all firearms are benched, the action open, the magazines removed, and are not handled while anyone is downrange. This means that you **DO NOT TOUCH** the weapon as long as the range is in a “**COLD**” condition. Once everyone is behind the firing line, the range may be call “**HOT**” and handling of firearms may resume. You can reload magazines during a cold range provided you do have to touch the weapon to get the magazine.

## **Trash Reminder**

Please place all cans and plastic bottles in the barrels beside the trashcans. We recycle these because they don't burn well. On the plinking range, don't put the shot up cans and bottles back in the trashcan. They can still be recycled with holes in them.

## **Club Work Days**

The Range is closed on the 3<sup>rd</sup> Saturday of each month to do the required maintenance that keeps our range the premier shooting facility in area. The maintenance officer directs the maintenance and it is at his discretion as to when the work is complete and the range re-opened. There is no set time for the range to re-open so if you show up wanting to shoot and the range is still closed, pitch in and help and the range will get opened sooner.

## **Lead Removal**

If you cast your bullets and want to use the range lead, help yourself to all the lead you want. The only thing is we need to know how much lead is removed from the range. We have to report it to the EPA. If you remove any lead from the range please call Charlie Webster at (850) 968-9846 and let him know how much was removed.

## **Ammo Reminder**

Members are reminder that all tracer ammunition is strictly prohibited for use on PRPC property. Tracers are known to cause fires and this time of year that can be especially dangerous. **Do Not Fire Tracer Ammunition.**

### January

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1	2	3 Practice Silhouette Match 8:00am	4	5 900 Pistol Match 9:30am	6 Rimfire Benchrest Practice Match 9:00am	7 Rimfire Benchrest Club Match 9:00am
